PROFESSIONAL SUMMARY

Frontend-focused Software Developer with **1 year of professional experience** at Lakkshions IT Private Limited, working across HRMS/LMS and MediaOps products. Hands-on experience with React.js, TypeScript, HTML, CSS, REST API integration, functional requirement analysis, BRD/functional documentation, and interactive web experiences. Experienced in translating business requirements into practical interfaces and collaborating across product and development activities.

PROFESSIONAL EXPERIENCE

Lakkshions IT Private Limited | Software Developer / Frontend Developer | **1 Year**

HRMS / LMS Project

- Contributed to functional analysis, business-process research, and identification of product requirements and features.
- Prepared and worked with BRD and functional documentation to translate business requirements into development-ready requirements.
- Developed user interfaces and frontend modules using React.js, TypeScript, HTML, and CSS.
- Worked on frontend integrations and aligned implemented UI functionality with functional requirements.

MediaOps Project

- Developed frontend interfaces and product features using React.js, HTML, and CSS.
- Worked with REST APIs and contributed to frontend-backend integration with Python-based backend services.
- Contributed primarily to frontend development while gaining practical exposure to backend/API integration.

Interactive UI & Animation

- Researched and implemented interactive animation concepts, including 3D animation experiences, for MediaOps and FlowX web pages.
- Integrated motion and visual elements into web interfaces while maintaining the intended product structure and user experience.

TECHNICAL SKILLS

Frontend: React.js, TypeScript, JavaScript, HTML5, CSS3

Backend / APIs: REST APIs, Python (API/backend exposure)

Functional / Documentation: Functional Requirement Analysis, BRD, Functional Documentation

UI / Experience: Web Animations, 3D Animation Concepts, Interactive UI

Additional IT Exposure: Workday HCM Functional Experience

Database: SQL, MySQL, DBMS

Tools: Git/GitLab, Figma-to-UI implementation exposure

EDUCATION

B.Tech – Artificial Intelligence and Data Science	Seshadri Rao Gudlavalleru Engineering College, Gudlavalleru (JNTU Kakinada)	2021–2025 CGPA: 8.3/10
Intermediate – Board of Intermediate Education, AP	Sri New Vision Jr College, Gudivada	2019–2021 882/1000
Secondary School – Board of Secondary Education, AP	Montessori (T.M) High School, Gudivada	2018–2019 GPA: 9.0/10

CERTIFICATIONS

- Machine Learning with Python – EDX
- Programming Essentials in Python – Cisco
- Java Full Stack Development – Wipro Talent Next
- Accenture North America Data Analytics and Visualization Job Simulation – Forage (2025)
- AI & Cyber Security – Medical & Engineering Researchers Society
- TensorFlow Machine Learning Bootcamp – GDSC (TFUG HYD)
- Data Science using Python – Brainovision Solutions (International Workshop)

SELECTED PROJECTS

Water Potability Prediction Using Voting Classifier — Built a Voting Classifier combining Gradient Boosting and Random Forest, achieving 91% accuracy, with Explainable AI techniques.

Customer Churn Prediction – Telecom Sector — Developed a churn prediction model using Random Forest, XGBoost, and SVM; achieved 80% accuracy using a Stacking Classifier and created a real-time prediction interface with Gradio.
