PROFESSIONAL SUMMARY

Workday HCM Functional professional with **1 year of professional experience** at Lakkshions IT Private Limited. Hands-on exposure to Workday HCM functional concepts, tenant-based research, requirements analysis, testing support, PRD/BRD documentation, and basic configuration exploration. Experienced with Workday Compensation, Security, Supervisory Organizations, Cost Centers, Companies, and Locations, and with supporting an HRMS product based on Workday-oriented requirements. Also experienced in internal Workday HCM knowledge sharing and training.

PROFESSIONAL EXPERIENCE

Lakkshions IT Private Limited | Workday HCM Functional / Product Support | 1 Year

- Worked on Workday HCM functional research and analysis within a Workday tenant environment, studying end-to-end functional flows and business requirements.
- Supported functional activities related to client requirements, including understanding requirements and assisting with testing of expected business-process outcomes.
- Developed functional understanding of Workday Compensation and explored basic configuration concepts within the tenant.
- Explored Workday Security concepts and basic configuration areas to understand access and functional-process relationships.
- Led functional/product research for an HRMS product developed with Workday-oriented requirements and contributed to PRD/functional documentation.
- Researched and documented Supervisory Organizations, Cost Centers, Companies, Locations, Compensation, and Security concepts.
- Acted as a functional point of contact for product understanding and helped guide the team on Workday-related requirements.
- Trained and supported team members within the organization on Workday HCM concepts and functional areas.

WORKDAY HCM FUNCTIONAL SKILLS

Workday HCM: Core HCM Concepts, Compensation, Security, Supervisory Organizations, Companies, Cost Centers, Locations
Functional: Requirements Analysis, Tenant Research, Functional Testing Support, PRD/BRD Documentation, Business Process Understanding, Product Requirement Mapping
